This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

INFORMATION FOR READERS.

This First Supplement to the Catalogue of 1889 contains the additions to the Library made since that date, to, and in a great measure including, 1895. As the printing progressed new books were added to each consecutive class, so that the later classes contain the latest additions, and the Supplement and Catalogue together give the larger part of the contents of the Library.

The arrangement of the Supplement is the same as that of the Catalogue. A change has been made in the interest of greater simplicity in the call numbers of Fiction, the lower case letters having been omitted. They are often misleading, and annoying both to write or read, and no trouble is experienced by omitting them. The *time numbers* in Natural Science and Useful Arts have also been dropped, being found of less value than the author's initial. Attention is called to the schedule of the Decimal Classification printed on pages v, vi as showing the numbers belonging to the different class divisions.

The *first part* of this Supplement, called the CLASS CATALOGUE is arranged in accordance with this classification, and the larger part of what the Library contains on any given subject will be found in its proper class. For ready reference in finding books on special subjects, if the class number is not known consult the SUBJECT INDEX at the end af the volume.

In the *second part* of the Supplement is the AUTHOR INDEX, wherein are entered all books under the author's full name when known, excepting Fiction. Anonymous books are entered under title. No imprint has been given in either list, save the date of publication in the Class Catalogue. The *third part* contains the SUBJECT INDEX referred to above, and will be found of great help in finding information upon all sorts of subjects.

CARD CATALOGUE.

For further information concerning books or subjects, readers should consult the Card Catalogue at the Library in which books will be found entered under *author*, *title* and *subject*, and arranged in alphabetical order. The *author* card is the most important, as it gives the author's name entire, and the full title and sub-title entry, place, date of publication, illustrations, contents, etc. The *title* card gives the title in brief form, with author, place and date. The *subject* card contains as a heading the subject of which the book treats, and all books bearing on special subjects wholly or in part, are represented by cards arranged under such subject headings. The Card Catalogue is also always up

to date and contains all the books in the library, including not only those which are in the Catalogue and Supplement, but all those which have been added since, and should always be consulted when an exhaustive study of any topic is to be made.

Books belonging to the Reference Department are marked thus *, and are not for circulation. The letter J before the *class* number shows that the book is especially for children.

Colons after initials indicate as follows: A: Augustus, B: Benjamin, C: Charles, D: David, E: Edward, F: Frederick, G: George, H: Henry, I: Isaac, J: John, K: Karl, L: Lewis, M: Mark, N: Nicholas, O: Otto, P: Peter, R: Richard, S: Samuel, T: Thomas, U: Ulrich, V: Victor, W: William.

Double periods indicate as follows: A.. Anna, B.. Beatrice, C.. Charlotte, D.. Delia, E.. Elizabeth, F.. Fanny, G.. Grace, H.. Helen, I.. Isabella, J.. Jane. K.. Kate, L.. Louisa, M.. Mary, N.. Nancy, O.. Olivia, P.. Pauline, R.. Rebecca, S.. Sarah, T.. Theresa, U.. Ursula, V.. Victoria, W.. Wilhelmina, Z.. Zenobia.
